GENERAL MANAGER'S MESSAGE

This is an opportunity for MAEC Contracting Company, to introduce ourselves as one of the leading Companies in the field of Infrastructure segment and growing up in the field of Oil & Gas industry and other segments.

Saudi Arabia is a Country that holds its Development Credentials in this Era and fast growing economy. It is the place that offers us an honorable life and provides us with our rights as humans to prosper, to find a job and to lead a secured and stable life; therefore, the Kingdom of Saudi Arabia has offered both its citizens as well as its residents countless job opportunities in different fields.

Our duties towards our valuable country are many. Most importantly are those related to the employment sector; which includes:

- ❖ To participate in the business and investment sectors that will achieve progress and flourishing of the economy. Consequently, new job opportunities will be created for both nationals and residents
- ❖ To abide by all labor laws and regulations through following the institutional rules and not violating them.
- ❖ To stay away from misconceptions including rumors and intolerance. It is our duty to eliminate such thoughts and spread awareness about the importance of teamwork across all ages, ethnicity and qualifications.

I wish all our employees, partners and clients work together to achieve the vision of 2030; a vision that will enable us and the Kingdom to prosper and grow in all its sectors. We wish this Nation steady growth under the patronage of the Custodian of the Two Holy Mosques King Salman Bin Abdul Aziz Al Saud.

SAAD ABDULLAH SAAD AL AQILI
GENERAL MANAGER

INTRO, VISION & MISSION

INTRODUCTION:

MAEC Contracting Company was established in 1999. It is recognized as one of the leading local construction companies in the Kingdom for its exceptional performance in the water, oil & gas, power generation, petrochemical, energy and manufacturing industries.

MAEC provides Design Services, EPC, Project Management, Procurement and General Contracting, for medium and large-scale industrial construction as well as turnaround/shutdown and T&I services. Its capabilities extend to civil & structural, mechanical and equipment erection, piping fabrication and installation, electrical & instrumentation, coating and insulation works.

The company employs a manpower complement of skilled craftsmen & engineers and owns a fleet of heavy and light construction equipment. It also has a tie-up of a fabrication and assembly facility for pressure piping, CS and SS / Alloy piping in Dammam Area. Depending on the requirements, we can arrange the production as per Client requirements.

VISION STATEMENT

To be recognized as the best one-stop destination for Engineering, Procurement, Construction, Commissioning, Startup and Maintenance services of Process, Civil/Structural, Mechanical, Piping, Electrical, Instrumentation, Control, Automation and Telecom Systems for the markets we serve.

MISSION STATEMENT

We will conduct our business activities in a manner that is consistent with the international best practices providing timely and responsible solutions, and ensuring value for money to all our clients, customers and partners. We recognize that our employees are the key to achieve the goals of the organization and we are committed to recruit, train and retain the competent people.

MAEC SYNOPSIS

MAEC CORE VALUES

MAEC ensures for the best results and are active in addressing the Quality and urgent issues

MAEC operates Safely and are committed to the wellbeing of our workforce.

MAEC follow innovative ideas for latest trends in conducting its business

MAEC is responsible for its actions and meeting client objectives

MAEC empowers its nationals and expats for overall development

WORK CAPABILITIES/SERVICES

MAEC has the capability to execute works for Oil & Gas industry and infrastructure works. The services that we can offer are as follows:-

DETAILED ENGINEERING AND DESIGN SERVICES

- ❖ Basic and Detailed Engineering
- ❖ Project Management & Construction Management
- ❖ Perform Third Party Studies, HAZOP, Constructability Study, BRA, & Others.
- ❖ SIL Assessment and SIL validation
- ❖ Preparation of Bid packages for EPC tenders, Technical and Commercial bid
- ❖ Design verification & adaptation
- ❖ Cost Estimation and Project Controls/Planning
- ❖ MR Preparation
- ❖ NMR Reviews & Approvals
- ❖ Method Statement , JSA and Execution Plans Preparation
- ❖ Bidding and Tendering-LSTK,LSPB
- ❖ Techno-commercial Risk Analysis
- ❖ Safety system design and evaluation
- ❖ Instrumentation & control strategies and philosophies
- ❖ Electrical and power system studies- Load Flow, Short Circuit & Current limiter Sizing.
- ❖ E&I Construction Management and Construction Supervision
- ❖ Technical Training

MAEC SERVICES

FIELD ENGINEERING

We offer field engineering services in the field of civil, structural, mechanical, piping, electrical and instrumentation, Telecom. Our engineering team are capable of providing detailed engineering services for diverse industries especially Saudi Aramco and Other major state owned companies in Saudi Arabia.

During construction phase of the project, our team collaborates and supports site operations in constructability review, resolving technical issues and developing installation/erection methodologies that would be beneficial to both MAEC and our customers in terms of cost and schedule.

PROCUREMENT

MAEC supports projects on procurement using our local and global network of suppliers and manufacturers. We outsource specialized works to Approved Third Parties and Contractors in Kingdom who has the technical expertise and well-established in Saudi Arabia. We have procedures and systems in place that includes selection of vendors and subcontractors, bidding, placement of orders, customs and forwarding, warehousing, logistics and inspection. Our procurement staff and engineers are well experienced in all aspects of procurement. We are committed to meet the project deliverables on time.

CIVIL & STRUCTURAL WORKS

The success of a project requires the right combination of trained personnel and right resources & MAEC has both. The Company over 2 decades maintain a track record of completing and delivering quality projects on time. Earthworks, Site works, Concreting of Heavy Equipment Foundations, Pipe Racks, Industrial Buildings & Structure Foundations and Roadworks.

We have established systems that efficiently control schedules, safety and quality from start of project up to its completion. With our modern equipment, highly trained and skilled manpower, we assure our customers of timely turnover of completed facility.

MAEC SERVICES

MECHANICAL WORKS

Rooted from the over 2-decade experience in Central Region of KSA, the Company is regarded as one of the most dependable contractors for civil & electro-mechanical services in the kingdom. We have a track record of success in various industries such as oil and gas, power, petrochemical, water, infrastructure, manufacturing and other industries in the kingdom.

The Company is prepared to meet the most challenging schedules of our clients including achieving mechanical completion, testing and commissioning. We have the capability to undertake mechanical projects, in the most efficient manner complemented by modern fabrication shop facility.

PIPING WORKS

MAEC provides cost effective solutions for its customers requirements through its expert project management team and technical support group having vast experience in piping works in the fields of petrochemicals & refineries, power and desalination, industrial and manufacturing industries, to the best quality and safety practices within the given schedule.

Projects are supported with its in-house pipe spool fabrication facility (either in its base workshop or site fabrication facility) having a monthly production capacity up to 5,000 dia-inch per single shift. Capability extends to fabrication of carbon steel, stainless steel, alloy and other exotic materials. We specialize in piping fabrication, erection, hydro testing, pre-commissioning and commissioning activities.

WELDING WORKS

The Company is a recipient of numerous citations on welding. MAEC have achieved a 98% weld acceptance rate from one of its clients, in many completed projects. We have certified Welders and can develop WPS for all categories of CS, SS, Alloy Steel materials.

MECHANICAL/PIPING SERVICES

- ☐ Erection of Equipment's such as but not limited to Vessels, Columns, Exchangers, Compressors, Turbines, Pumps & Other Equipment's.
- ☐ Skid Assembly & Erection of Skids/ Vessels
- ☐ Heavy Lifting and Transportation
- ☐ Tanks Fabrication and Erection Works
- ☐ Process Piping, Fire Water Piping & Utility Piping
- ☐ Pipeline & Onshore plot piping
- ☐ Spool Fabrication including Jacketed Piping
- ☐ Industrial structures & Pipe Racks/Platforms
- ☐ Plant turn-around & Revamping works
- ☐ Structure Erection & Bolt torqueing
- ☐ Hydrostatic Pressure testing Piping & Valves

MAEC SERVICES

ELECTRICAL AND INSTRUMENTATION WORKS

MAEC's strength is also in the area of electrical and instrumentation works. It also leads the competition in this area of construction. We offer clients in various industries with effective and efficient project management, ensuring that its services are within budget, on time completion and in compliance with industry standards.

We have the expertise working for grass roots and live/operational plants in refineries and other industries offering solutions for high/medium/low voltages as well as control and instrumentation cabling installations. Grounding, termination, functional tests for various electrical and instrumentation equipment.

We have competent and experienced personnel who are able to undertake a full range of construction requirements.

- MV Switchgear and MCC Installation
- Electrical Power Distribution/Substation Installations on Units or Turnkey basis.
- Electrical Power Systems (Transformers, ATS, Generators, Rectifiers, Power Panels, UPS, Power Cables Etc.) Supply, Installation and Testing.
- Electrical Power Line Towers Procurement, Foundation Construction, Erection, Painting, Installation of Power Lines, Connections and Associated Accessories
- Solar Power Systems (Solar Panels and Batteries) Supply and Installation.
- DCS/ESD/VMS System Installation
- CCS & Other Process System Installation.
- All types of Control Valves

MAEC SERVICES

TELECOM, FIRE & SECURITY SYSTEM WORKS

MAEC's strength is also in the area of Telecom and Security & Fire System works. It also leads the competition in these area of construction.

TELECOM :

Inside Plant (ISP) and Structured Cabling (SCS) Communication Systems (Equipment Racks, Cabinets, Cable Runways, Structured Cabling for Data/Telephone Outlets).

Outside Plant Systems (OSP) including Supply, Installation, Splicing and Testing of Fiber Optic and Copper Cables and Construction of Communication Manholes and Conduit/Duct bank Systems. Paging System. Operation & Maintenance of Various Communication Facilities and Systems.

FIRE SYSTEM :

- Fire Alarm, Detection Systems
- Intelligent Aspirating Smoke Detection Systems
- Clean Agent (FM200- And Novec1230-) Fire Suppression Systems
- High / Low-pressure CO2 Fire Suppression Systems
- Automatic Sprinkler Systems

SECURITY SYSTEM :

- Access Control and ID Management Systems
- Smart Access Control Reader
- Intrusion Detection and Assessment Systems (IDAS)
- Computerized Monitoring Systems
- Perimeter Intrusion Detection Systems
- Closed Circuit Television (CCTV) Systems
- Video Analytics Systems
- Road Barriers, Blockers, Tire Killers, And Sliding Gates
- Walkthrough Metal Detectors
- Turnstiles/Automatic Number Plate Recognition(ANPR)

MAEC FLEXIBLE SOLUTIONS

TAILORMADE SOLUTION

- ❖ Wide range of multinational and multidiscipline workforce to attain the client's specific requirements.
- ❖ Specialized persons for unique requirements.
- ❖ International network covering most major countries.

GLOBAL BEST PRACTICES

- ❖ Technology based solutions to increase effectiveness.
- ❖ Delivering the services to the client as per the schedule.
- ❖ Experienced staff capable of giving industry best practice and fit-for purpose solution.
- ❖ Using of Professionals who understand the complete cycle of oil and gas business from concept to commissioning
- ❖ Quality Training to the staffs and make them to work towards continuous service

PROFESSIONAL GROWTH

“The key to our underlying success is found in the creativity, professionalism and diligence of the people who work for us. Maintaining an environment where those people feel nurtured and challenged is of paramount importance to us.”

We put a great deal of effort into helping our staff develop all of their skillsets. During the course of the years, our team of engineers and managers participated in numerous advanced training courses, certification courses and leading industry exhibitions.

OUR PARTNERS / SUPPLIERS

Throughout 20 Years of history, we've strived to build a reputation for excellence, quality construction and technological innovation. MAEC competitive differentiation and success is built on long-standing partnerships, associations with locally renowned manufacturers and suppliers and its adherence to the highest levels of professionalism and operating business.

Nowadays, this relationship continues to evolve to ensure that we provide our clients with a robust portfolio of leading edge systems engineering and construction.

QUALITY STATEMENT

We consider Quality Management and associated targets and objectives as a core value and it is part of every function. Our Integrated Management System (IMS covering Quality, Health, Safety and Environment (QHSE), based on ISO 9001:2015 for Quality Management, OHSAS 45001:2018 for Occupational Health and Safety, and ISO 14001:2015 for Environmental Management evidence of our focus and commitment.

We practice flexibility to adopt and adhere to any specific requirements from our customers based on their proprietary QHSE practices within the framework of our own QHSE management system. Our employees are well trained on all aspects of QHSE activities as per IMS and we ensure our subcontractors/suppliers have proven QHSE standards and procedures, as part of their qualification process.

With an efficient management team and policies we are able to deploy Continuous Improvement with minimal cost. Our periodical internal and external audits ensures compliance to the established QHSE procedures and standards.

Our board meetings, performance reviews and team briefings emphasize on Total Quality Management and hence Continuous Improvement is embedded in the core work culture.

SAFETY STATEMENT

MAEC is committed to the protection of all its employees, resources, properties and interested parties against injury, ill health and financial loss in a manner that prevents environmental pollution. MAEC shall focus on continual improvement in Health, Safety & Environmental Management and performance to minimize Occupational Health & Safety risks and environmental impacts related to its construction business.

In fulfilling this commitment, MAEC shall provide improvement and maintain a safe and healthful working condition, maintain a vigorous incident and pollution prevention program and ensure that our activities pose no threat to the Health, Safety and Environment of those who may be affected directly or indirectly.

Line Managers are responsible in protecting employees health and safety including the environment, while it will be the duty of all employees to work safely in line with MAEC policies and standards.

The slogan **Safety First** will be communicated to all persons working under the control of MAEC with the intent that they are made aware of their individual Health, Safety and Environmental obligations;

LICENSES & CERTIFICATIONS

Saudi Aramco E-Reference No. 0002907

Registration Approval Letter

August 31, 2020

Attention : MAEC CONTRACTING EST.

CR Number : 1010158780
Country : Saudi Arabia

We are pleased to inform you that MAEC CONTRACTING EST. is now registered in the Saudi Aramco Supplier Management System under Vendor Code No. 10067133, provided your company continues to meet all relevant Saudi Arabian and Saudi Aramco standards.

This registration, however, should not be construed as a commitment by Saudi Aramco to procure from you. Being registered as a supplier only grants your company the opportunity, along with other registered sources, to respond to requests for submitting proposals in accordance with Saudi Aramco's established policies and procedures. All procurement instruments including but not limited to service contracts, purchase agreements, or purchase orders will be issued based on the name and address included in your commercial registration (CR), as stated in your Supplier Registration.

Saudi Aramco wishes to remind you that being recognized as a supplier carries with it serious obligations and responsibilities to act in a legal and ethical manner. We wish to remind you of the Saudi Aramco Supplier Code of Conduct (SCOC) which you acknowledged. Failure to abide by the principles set forth in the SCOC can result in adverse actions being taken by Saudi Aramco against you including suspension of you as a supplier. Saudi Aramco also expects each of its suppliers to satisfy each of the requirements of any procurement instrument which might be placed and to act responsibly and reliably as a supply chain supplier.

Material Suppliers should apply for Saudi Aramco Supplier Portal access by forwarding a request to portal-registration@aramco.com. The Supplier Portal is the main electronic business tool used between Saudi Aramco and its suppliers and serves to improve the flow and accuracy of key supply chain information.

For further information or assistance please contact the Saudi Aramco Supplier Help Desk by forwarding a request to SupplierHelpDesk@aramco.com or via the unified call center +966 (13) 874-2222.

Nader Hmoud Al Issa, Supervisor
Document Control Group
Document Control Group

It is the responsibility of the supplier to update Saudi Aramco Supplier Registration Profile through Ariba for the following:

1. Change of Name / Commercial Registration Number / Address / Owner(s)
2. Any change of the supplier location
3. Discontinue supply of approved commodities (9COMs and 9CATS)
